7. The certification of an appropriate accounting system, if required by the contract type;

SECTION B - GENERAL CONDITIONS OF CONTRACT BETWEEN COUNTY & CONTRACTOR

1. ACCOUNTING SYSTEM AND AUDIT, ACCURATE INFORMATION

The contractor certifies that all information the contractor has provided or will provide to the County is true and correct and can be relied upon by the County in awarding, modifying, making payments, or taking any other action with respect to this contract including resolving claims and disputes. Any false or misleading information is a ground for the County to terminate this contract for cause and to pursue any other appropriate remedy. The contractor certifies that the contractor's accounting system conforms with generally accepted accounting principles, is sufficient to comply with the contract's budgetary and financial obligations, and is sufficient to produce reliable financial information.

The County may examine the contractor's and any first-tier subcontractor's records to determine and verify compliance with the contract and to resolve or decide any claim or dispute arising under this contract. The contractor and any first-tier subcontractor must grant the County access to these records at all reasonable times during the contract term and for 3 years after final transaction under contract. If the contract is supported to any extent with federal or state funds, the appropriate federal or state authorities may also examine these records. The contractor must include the preceding language of this paragraph in all first-tier subcontracts.

2. AMERICANS WITH DISABILITIES ACT

4. ASSIGNMENTS AND SUBCONTRACTS

The contractor may not assign or transfer this contract, any interest herein or any claim hereunder, except as expressly authorized in writing by the Director, Department of Finance. Unless performance is separately and expressly waived in writing by the Director, Department of Finance, an assignment does not release the contractor from responsibility for performance of this contract. Unless otherwise provided in the contract, the contractor may not contract with any other party for furnishing any of the materials or services herein contracted for without the written approval of the Director, Department of Finance. Any subcontract for any work hereunder must comport with the terms of this Contract and County law, and must include any other terms and conditions that the County deems necessary to protect its interests.

5. CHANGES

The Director, Department of Finance, may unilaterally change the work, materials and services to be performed. The change must be in writing and within the general scope of the contract. The contract will be modified to reflect any time or money adjustment the contractor is entitled to receive. Contractor must bring to the Contract Administrator, in writing, any claim about an adjustment in time or money resulting from a change, within 30 days from the date the Director, Department of Finance, issued the change in work, or the claim is waived. Any failure to agree upon a time or money adjustment must be resolved under the "Disputes" clause of this contract. The contractor must proceed with the prosecution of the work as changed, even if there is an unresolved claim. No charge for any extra work, time or material will be allowed, except as provided in this section.

- (9) recommend contract modifications or terminations to the Director, Department of Finance;
- (10) issue notices to proceed; and
- (11) monitor and verify compliance with any MFD Performance Plan.

B. The contract administrator is NOT authorized to make determinations (as opposed to recommendations) that alter, modify, terminate or cancel the contract, interpret ambiguities in contract language, or waive the County's contractual rights.

7. COST & PRICING DATA

The Director, Department of Finance, must dismiss a dispute that is not timely filed. A dispute must be in writing, for specific relief, and any requested relief must be fully supported by affidavit of all relevant calculations, including cost and pricing information, records, and other information. At the County's option, the contractor agrees to be made a party to any related dispute involving another contractor.

9. DOCUMENTS, MATERIALS AND DATA

All documents materials or data developed as a result of this contract are the County's property. The County has the right to use and reproduce any documents, materials, and data, including confidential information, used in the performance of, or developed as a result of, this contract. The County may use this information for its own purposes, including reporting to state and federal agencies. 10. DURATION OF OBLIGATION

The contractor agrees that all of contractor's obligations and warranties, including all requirements imposed by the Minority Owned Business Addendum to these General Conditions, if any, which directly or indirectly are intended by their nature or by implication to survive contractor performance, do survive the completion of performance, termination for default, termination for convenience, or termination by mutual consent of the contract.

11. ENTIRE AGREEMENT

There are no promises, terms, conditions, or obligations other than those contained in this contract. This contract supersedes all communications, representations, or agreements, either verbal or written, between the parties hereto, with the exception of express warranties given to induce the County to enter into the contract.

If requested by the County, the contractor must defend the County in any action or suit brought against the County arising out of the contractor's negligence, errors, acts or omissions under this contract. Accordingly, the contractor must protect, indemnify, and hold harmless the County from and against all liabilities, actions, damages, claims, demands, judgments, losses, costs, expenses, suits, or actions, and attorneys' fees and the costs of the defense of the County, in any suit, including appeals, based upon or arising out of any allegation of infringement, violation, unauthorized use, or conversion of any patent, copyright, trademark or trade name, license, proprietary right, or other related property or privacy interest in connection with, or as a result of, this contract or the performance by the contractor of any of its activities or obligations under this contract.

22. NON-CONVICTION OF BRIBERY

The contractor hereby declares and affirms that, to its best knowledge, none of its officers, directors, or partners or employees directly involved in obtaining contracts has been convicted of bribery, attempted bribery, or conspiracy to bribe under any federal, state, or local law.

The contractor must bind its subcontractors to the provisions of this section.

24. PERSONAL PROPERTY

All furniture, office equipment, equipment, vehicles, and other similar types of personal property specified in the contract, and purchased with funds provided under the contract, become the property of the County upon the end of the contract term, or upon termination or expiration of this contract, unless expressly stated otherwise.

25. TERMINATION FOR DEFAULT

- (b) failing to make satisfactory progress in the prosecution of the contract; or
- (c) endangering the performance of this contract.

The Director, Department of Finance, will provide the contractor with a written notice to cure the default. However, if the County determines that default contributes to the curtailment of an essential service or poses an immediate threat to life, health, or property, the County may terminate the contract immediately upon issuing oral or written notice to the contractor without any prior notice or opportunity to cure. In addition to any other remedies provided by law or the contract, the contractor must compensate the County for additional costs that foreseeably would be incurred by the County, whether the costs are actually incurred or not, to obtain substitute performance. SECTION C - SCOPE OF SERVICES:

1. Background

Montgomery County, Maryland (the County), requires a Contractor to provide Commercial Property Assessed Clean Energy (PACE) County Designated Lender services for the Department of Finance (FIN), Division of Fiscal Management.

Montgomery County, Maryland (“the County”) has authorized the establishment of a Commercial Property Assessed Clean Energy Program (“PACE”) to provide financing for eligible improvements to qualified property owners in the County. The PACE authorization provides Montgomery County with the duty of PACE surcharge collection via the property tax bill. A surcharge is the annual PACE loan repayment, including principal, interest, and related charges, which funds an improvement and is collected through the real property tax billing process. Surcharges will be placed on individual properties based on their voluntary participation through the borrowing of funds to make eligible energy improvements to their property. Montgomery County Bill 6-15¹ (“the Bill”) is the local adoption of legislation to implement a program, as authorized by Subtitle 11 of the Local Government Article of the Maryland Code Section 1-1104². PACE financing is available to eligible commercial, industrial, manufacturing, agricultural, multifamily (>4 units), and institutional property owners for eligible energy improvements that are permanently affixed to their privately-owned existing structures.

Montgomery County’s implementation of the PACE Program intends to utilize third party administrative (Program Manager) and financing (County Designated Lender) services. This Solicitation will serve to assist with the selection of the party(ies) that will provide necessary services to develop, launch, and operate the Commercial PACE Program in Montgomery County. The County reserves the right to select providers for the desired roles and responsibilities at their sole discretion from Solicitation respondents, existing government agency providers, or not at all.

The County is sponsoring the program to facilitate and finance qualified energy efficiency improvement projects and renewable energy system projects for organizations, institutions and businesses within their jurisdiction. Montgomery County is located directly north of Washington, D.C. and shares the economic benefits of being the headquarters for federal government services providers and a variety of large companies. The County population is approximately 1,016,677, contained in a land area of 496 square miles.

The County believes that the roles of Program Manager (“PM”) and County Designated Lender (“CDL”) will facilitate project installations, which will also enhance local economic development, by providing a consistently delivered financing product. Engagement of local business groups and energy contractors will be a key component to the success of the Program and respondents should discuss their experience and capacity with market development for delivery of energy-related improvements and financing products. The Program Manager will be expected to provide all administrative, marketing, operational, and management services necessary to operate a robust program. The County Designated Lender will be the committed source of Program funding. The County believes that having a committed lender will support the consistent deployment of capital by removing the barrier to property owners of having to

identify, document and seek approval of individual funding sources. The Program will allow Private Lender funding for property owners that would like to use the PACE surcharge mechanism with a funding source of their direct selection, provided that they agree to alignment with Program criteria and payment of all documentation costs and County fees, including PM fees for the establishment of the account for ongoing billing and payment disbursement.

Bill 6-15 provides eligibility information for all parties to the contemplated transactions. Property owners must meet specific eligibility criteria including qualification of the property, express written consent of any existing mortgage or deed of trust holder, and a positive equity position in the property³. Projects are also identified in the Bill as being “improvements that are for any equipment, device or material that is intended to decrease energy consumption or expand use of renewable energy sources.”⁴ Additionally, permitting, inspections and other fees associated with the improvements are eligible for funding. The Bill also provides a brief introduction to the expected responsibilities of the Program Manager and Third Party Lender (either County designated or Private lender). While not explicitly identified in the Bill, the Program Manager will be expected to maintain a listing of contractors who have registered with the Program. The PM will be responsible for confirmation of licensing represented in their registration.

The County will NOT be issuing bonds secured by the underlying property owner agreements. The surcharge may be imposed under a written agreement between the CDL or private lender and the County. The loan document between the third party lender and the property owner must include the agreement by the property owner to make PACE surcharge payments for collection and disbursement by the County in coordination with the Program Manager. The County will participate in the review of documentation evidencing the loans and surcharge obligations; however, it is expected that the CDL will undertake all documentation drafting as a responsibility of their engagement. Similarly, the PM will be responsible for drafting all documentation relevant to their obligations for Program administration.

The County must collect the amount financed through a surcharge on the property owner’s real property tax bill and forward payments received by the County to the County designated Program Manager no later than 30 days after the payment due dates for real property taxes. Payment due dates for semi-annual real property taxes are September 30 for the first installment and December 31 for the second installment, and for annual real property taxes the payment due date is September 30. If the property owner sells the qualified property, the buyer must continue to pay the surcharge levied on the annual property tax bill. The surcharge and any accrued interest or penalty constitutes a first lien on the real property to which the surcharge applies until paid. An unpaid surcharge will be, until paid, a lien on the qualified property on which it is imposed from the date it becomes payable. The surcharge will accrue interest and penalty and will be treated and collected like all other County property taxes. Any delinquency will be collected through the County Tax Sale process. The provisions of Title 14, Subtitle 8 of the Tax-Property Article of the Maryland Code that apply to a tax lien will also apply to the lien created under this law. Any delinquent surcharge collected through the County Tax Sale process must be forwarded to the County designated Program Manager no later than 30 days after the payment was received.⁵

Only new projects that have been completed are eligible for funding secured by the surcharge. In order to permanently fund these completed projects, the County is seeking participation by a CDL to assist with final structuring and offering of PACE loans secured by the surcharge as described above. In addition to

the selection of a County Designated Lender through this Solicitation, the County is seeking a Program Manager in a simultaneous Solicitation (#10001). The County Designated Lender is being asked to provide a minimum funding commitment of \$50 million through calendar year 2017. ***Bidders that have an interest in providing both PM and CDL services should respond to each Solicitation, respectively.***

The selected PM and CDL will be expected to play a role in the preparatory stages of the financing. These activities will include documentation of obligations, establishment of the origination platform, and deployment of education and outreach efforts to develop projects. County funds will not be used to reimburse the PM or CDL for costs incurred during Program operations, including initial development and launch. The respondent's proposed fee arrangement should be adequate to recover all costs through operations.

The following provides a high level representation of the preliminary cash flow schematic:

2. Intent

The County requires a Contractor to provide County Designated Lender Services for the Department of Finance ("FIN"). CDL Services are intended to provide all commercial PACE program funding services as described in the Scope of Services.

The County intends to award one Contract for County Designated Lender Services as a result of this Solicitation.

SOLICITATION #10002

The Montgomery County C-PACE Program is supported by FIN and the Department of Environmental Protection (DEP). This PACE Program will be the exclusive engagement of the Contract resulting from this Solicitation. The Contract will be managed by and report to FIN. The Contractor is not to perform any work under the Contract for any other County agencies except as directed by FIN.

Since 2008, over 30 states and the District of Columbia have authorized Property Assessed Clean Energy (PACE) under state law, and state and local governments initially allocated over \$150 million in federal grant funds to help launch programs. However, directives from the Federal Housing Finance Agency (FHFA), and the agencies that they regulate, Federal National Mortgage Association and Federal Home Loan Mortgage Corporation (Fannie Mae and Freddie Mac, respectively) in mid-2010 slowed the development of many residential PACE programs. Commercial PACE programs were not affected by these actions and are moving forward in a number of jurisdictions around the country. This Solicitation has been developed to assist Montgomery County, MD in its determination of appropriate steps for implementation of a Commercial PACE program.

PACE allows an eligible property owner to finance a range of energy efficiency or renewable energy improvements and allows the County to collect payments by the property owner to repay loans and costs over time via a PACE surcharge on the County property tax bill.

PACE has been widely promoted as offering the following benefits depending on the program design:

- Local job creation
- Removes barrier of large upfront cash outlay by property owner
- Allows repayment over a longer period of time, commensurate with savings and useful life
- Repayment obligation stays with the property upon sale
- Reduced utility bills offset PACE surcharge
- Improved properties have documented history of increased value
- Available for commercial, industrial, and multi-family projects
- Sponsoring agency can facilitate program with little or no direct debt obligation

Another advantage of commercial PACE is that it addresses the "split incentive" problem that exists in some commercial leases. The split incentive arises when a building owner pays for energy efficiency improvements, but it is the tenants that reap the benefits of those improvements through reduced energy costs. Under most leases, property taxes and other surcharges on the property tax bill are passed through to the tenants, therefore the PACE surcharge that repays the cost of improvements financed by a PACE loan can be passed through to tenants as well.

Similar to other programs that provide financing or incentives for building energy performance improvements, PACE enables a range of job creation, economic development, building valuation, and environmental benefits.

3. Scope of Services/Specifications/Work Statement

In order to permanently fund these completed projects, the County is seeking participation by a Third Party Lender(s)/Investor(s) to be named the County Designated Lender. The CDL will assist with final structuring in order to offer prompt, regular funding of projects completed through direct funding by the CDL, its investors or some other coordinated financing facility established by the Lender. In addition to the CDL selected through this SOLICITATION, Montgomery County reserves the right to enter into agreements with property owner-sourced and funded projects⁶. Montgomery County is seeking a minimum funding commitment of \$50 million through calendar year 2017.

The CDL will be expected to play a role in the preparatory stages of the financing. These activities will include, but are not limited to:

- Participation with drafting of the Program Handbook
- Guidance related to establishment of any reserve funds
- Finalization of underwriting criteria necessary for project/property owner qualification
- Program loan documentation for agreements between CDL and property owner, as well as CDL and County
- Participate as needed in and support and outreach activities
- Confirmation of \$50 million of lending capacity through 2017

The County intends to select a single financial partner (“CDL”) to provide funding under the final terms and conditions agreed to between the County and the CDL. PACE loans originated through the Program PM will be directed to the CDL, EXCEPT for when the property owner has negotiated funding with a separate entity that has agreed to the County’s required terms and conditions for placement of the obligation on the property tax bill.

The County expects to engage a PM that will be responsible for Program marketing and outreach in order to leverage existing opportunities and develop communications and understanding among commercial energy services contractors and property owners in the area. The Program administration will be managed by PM on behalf of the County in order to facilitate consistent methodology, documentation and reporting. If the CDL has relationships with property owners, energy services providers, or others that participate in this industry, the CDL should expect to collaborate with PM for effective outreach and marketing efforts to drive project originations to the Program.

⁶ Montgomery County intends to fund its directly sourced projects through this Solicitation’s selected funding source(s); however, single property-owners that directly negotiate property tax surcharge PACE financing with a lender may fund through the Program if evidence of compliance with underwriting criteria is met and County/PM fees are agreed to.
